Hiring Manager

City Brewing Company

La Crosse WI

Dear Hiring Manager,

I'm excited to apply for the Network Manager role at City Brewing Company. With over nine years of IT leadership experience specializing in network administration and cybersecurity, I am confident in my ability to support and strengthen your infrastructure across multiple locations.

In my current role as Director of Information Technology at Uniweld Products, I lead IT operations across three facilities, actively managing Aruba, HP, and Fortigate switches. My daily responsibilities include administering Microsoft 365, managing vendor relationships, and providing strategic direction for long-term infrastructure growth. Additionally, I'm spearheading our company's CMMC compliance initiative to enhance cybersecurity. My experience includes comprehensive server management, disaster recovery planning, and system optimization to maximize uptime and efficiency.

What truly drew me to City Brewing is your commitment to quality, growth, and fostering a strong team culture. During a recent visit to La Crosse, I fell in love with the town's unique blend of community spirit, natural beauty, and local pride. I am currently in the process of relocating to the La Crosse area and believe my skills and experience would be a valuable addition to your organization.

Thank you very much for considering my application. I look forward to the possibility of discussing how I can contribute to the continued success at City Brewing.

Sincerely,

Britten Falcher
